WORK EXPERIENCE

GIS INTERN @ HABIDATUM

June 2016 - August 2016

Analyzed route data from Google directions API in order to identify traffic patterns in Pune, India. Wrote scripts to automate download and sentiment analysis of data from social media sites.

GIS ANALYST @ KB STRELKA

October 2015 - May 2016

Undertook the Alfa Fellowship, a 10-month professional development program in Moscow. Based at KB Strelka, I composed and managed the principal database of geographic information for My Street, a large scale urban renewal project implemented by the Moscow City government. In addition, I trained two assistants in QGIS, ArcMap, and R software.

CARTOGRAPHIC INTERN @ NATIONAL GEOGRAPHIC

October 2015 - present

National Geographic was my secondary work assignment as part of the Alfa Fellowship Program. I designed maps and infographics for the Russian issue.

RESEARCH ASSISTANT @ HARVARD CGA

August 2013 - May 2014

Helped build a geospatial network model of transportation in the Russian Empire. Collected trade statistics from historical archives. Georeferenced raster images of historical maps and assisted in cartographic design

REFERENCES

”

I observed Alexander to possess a strong level of competence with GIS software, and a very sharp eye for detail. Once the best methods were determined for data collection, he was diligent in making sure he had mastered the skills to execute the plan.

JEFFREY BLOSSOM / HARVARD UNIVERSITY

”

His success in identifying an empirically and conceptually compelling research topic – critical to any type of research – was a function, first, of his excellent training in the social sciences, and, second, his deep regional knowledge of Russian and the former Soviet realm
